### "Set To Rage"

Visit "[Set To Rage](#)" on MotoLyrics.com

You're born to exist  
It's the origin of self-indulgence  
Life's course is grim  
Reject the conceit  
And rid the sin

Kill that disease... Kill that disease!

Send blood to stain... Send blood to soil

Set To Rage... For Their Misery  
Set To Rage... For Our Atrocity  
Set To Rage!

(Repeat)

Mendacity manipulates  
Malicious means  
See to your self ideals  
Struggle to attain

Kill that disease... Kill that disease!

Set To Rage... For Their Misery  
Set To Rage... For Our Atrocity  
Set To Rage!
