Thousands of handshakes
Millions of heartbreaks
Can't prevent the shots you take

I look around
At where I'm found
I'd never change the things I make

It feels like you're always losing
Living life that you would never choose
I know your efforts are in vain now
Living life that brings you only pain
I'm here again

RUN!

I never met her twice
I'll never see her face again
I can't remember her eyes
And I will never tell her name

Just a tiny drop
In my lifestream
She made my past life stop
Her blood still remains on my skin

I never met her twice
I'll never see her face again
I can't remember her eyes
And I will never tell her name

Just a tiny drop (Just a tiny drop)
In my lifestream
She made my past life stop

You're always lying
You never learn
Your heart is dying
I've no concern

You're always lying
You never learn

Your heart is dying
I've no concern

I spread a knowledge to the world
That makes it hard to breathe
You can run for your answers
But I'll make you fall on your knees
I'll be your midnight fear

I'll be your midnight fear

I will break your neck spinning like a thunder
I'm the giant wave that will take you under
I will tear your guts. I'm your disaster
I am not a vision - I'm the master

I will break your neck spinning like a thunder
I'm the giant wave that will take you under
I will tear your guts. I'm your disaster
I am not a vision - I'm the master

I'm the master
I'm the master
I'm the master
I'm the master
I'm the master
I'm the master

Bitch suck dick!

She made my past life stop
Her blood still remains on my skin
