## INTRO

OHH!

Let me see, see your dreams  
And just let me touch your heart again  
On the street where my beliefs  
Never caused you no pain

## VERSE

People hurt  
They always leave in just a minute  
For all those woken in my shirt  
(YOU SHOULD ADMIT! ) that I just did it  
That I just did it

## CHORUS

Feels so hard to find the reason of love  
Can't take any longer  
You're so much stronger  
Since I've been dreaming of a sign from above  
Don't get any better  
Nothing does matter  
My eyes are open wide to see what's coming next  
The trace I walk is so empty  
I'll give my life to make you never forget  
Who the hell you wanted to make me  
I'm better than you could be

## VERSE2

Always so sure  
That you can climb the sky  
Settle down your mind  
And never ever die  
Come and kiss me  
Oh darling, make me believe  
That I could ever give it back,  
Just turn my back and leave

## BREAKDOWN

Never knew if my words  
Would make sense again  
When you extend your name  
With titles and awards  
If there is a time for words  
To make sense again?  
If there is a planet of hopes  
Where you and me remain?

You mesh my head  
And that's the worst thing you could do  
I never knew if my words would make sense again

#### CHORUS

Feels so hard to find the reason of love  
Can't take any longer  
You're so much stronger  
Since I've been dreaming of a sign from above  
Don't get any better  
Nothing does matter  
My eyes are open wide to see what's coming next  
The trace I walk is so empty  
I'll give my life to make you never forget  
Who the hell you wanted to make me  
I'm better than you could be

#### BRIDGE

A tiny border between love and hate

#### BREAKDOWN

Yeah babe, I was laughing  
But now it's true  
So make up your mind  
And look for your heartbeat  
I would connect my life  
With every single part

Yeah babe, I was lying  
But now it's true  
So make up your mind  
And look for your heartbeat  
I would connect my life  
With every single part

#### OUTRO

People hurt - they always leave in just a minute

For all those woken in my shirt - admit that I just did it

People hurt - they always leave in just a minute  
For all those woken in my shirt...

Admit that I just did it bitch.

OHH!
