Boom! There go your lips  
Thought it would last forever  
Now it's a time for our kiss  
Stuck between hell and heaven  
Don't you think that  
We're all twisted  
You're like a voice in my head  
You're the threat  
And you've always existed

Bring me down  
Make me unconscious  
Try to shut my mouth with your glove  
Tryna take my heart but I won't allow

How could I know  
That this is not your smile?  
Not yours anymore, girl  
But stolen for a while  
You should have know  
Encircled with a fire  
A match was thrown  
Into the heart of your empire

A match was thrown  
Into the heart of your empire  
Set on fire

Envious still try to obsess your crown  
Hidden far away  
The day you lost your charm  
Painted many lives in grey  
You're all that we know  
Whom we used to adore  
Perfect years come and go  
Behind your closed door

You never let me inside  
You never opened that door  
Even when your castle's burning floor by floor  
You never looked in my eyes  
You're always telling the lies

What part of the truth do you hide?

Don't you try to make me believe  
In the perfect life, in the dream that you live  
If time goes back in my reality  
I would never forget what you have done to me

Bring me down  
Make me unconscious  
Try to shut my mouth with your glove  
Tryna take my heart but I won't allow

Hey, hey, hey, hey! [x3]

Forward march!

A match was thrown  
Into the heart of your empire  
Set on fire
