You can see it in my eyes
I'm letting life slip right on by
But every moment I disregard
Keeps taking it's sweet time
Pins and needles, mindsets, goals
A restless heart, a struggling soul
I can't remember the past
Now tell me what the future holds
I've let myself down so many times

I'll keep this dream alive
And fall asleep tonight
Content with who I am
And knowing that I tried
I just can't forget to live my life right now
Cause now is all I have

I finally open up my eyes
Look up to see the sun soaked sky
I can't remember the last time I stopped
To take my sweet time
The sparks ignite, the tires grab
Drive away my doubts no looking back
Doesn't matter were it ends
This road is all I have
I've let myself down so many times

I'll keep this dream alive
And fall asleep tonight
Content with who I am
And knowing that I tried
I just can't forget to live my life right now
Cause now is all I have
All I have, all I have, all I have

I'll keep this dream alive
And fall asleep tonight
Content with who I am
And knowing that I tried
I just can't forget to live my life right now
Cause now is all I have

I'll keep this dream alive
And fall asleep tonight
Content with who I am
And knowing that I tried
I just can't forget to live my life right now
Cause now is all I have
Cause now is all I have
