I packed my bags now I can't wait
To get out of this place
To feel the road under my feet
I'll drive away

Well no offense to this small town
But there's no reason to stay around
I'll take my chances somewhere else
Where there's a chance to take

I can't wait to see this
I've waited all these years to be on my own
To feel so alive
I'll say it again and I'll set it right

No more nights wasted on our street
Or late night swims in the the summer's heat
I've driven down all these back roads
I know where they lead
All these great memories
I thought I'd never leave
No matter where I go
I'll keep them close to me

I can't wait to see this
I've waited all these years to be on my own
To feel so alive
I'll say it again and I'll set it right

Wait to see this
I've waiting all these years to be on my own
To feel so alive

What's been stopping me all these years?
Was I dragging with me all my fears?
I never should have let them hold me down
So take this as my goodbye, I'm out the door
I need to find what dreams are for
To me, it's the only thing that matters anymore

I packed my bags now I can't wait
To get out of this place

To feel the road under my feet
I'll drive away

I can't wait to see this
I've waited all these years to be on my own
To feel so alive
I'll say it again and I'll set it right.

Wait to see this
I've waited all these years to be on my own
To feel so alive
