See I'm the one that loves you
She never deserved you
Sorry if it hurts now
But I've gotta have you
This might end our friendship
The chance I'm gonna take it
If you feel the same way I know we're gonna make it

Would she take your coat
When you come in from out the rain?
Would she hold your hand again
If it eased away your pain?
Would she try her best
To give you room to grow?
Or would it all just be a show
Or could it all just be in vain?

You can't fight love
You can't fight love
Don't you turn and walk away
Cos I thought I heard you say
You lost it time and time again
You can't fight love
No you can't fight love
You can't buy it on a shelf
You should look for no-one else
Nobody but myself

I've been standing by
In a silence I have cried
Longing to hold you in the night
But I never spoke a word
But all the love in me
Can't reveal the way I feel
But when I tell you what's inside
Don't you run away for miles

You can't fight love
You can't fight love
Don't you turn and walk away
Cos I thought I heard you say
You lost it time and time again

You can't fight love
No you can't fight love
You can't buy it on a shelf
You should look for no-one else
Nobody but myself

See I'm the one that loves you
She never deserved you
Sorry if it hurts now
But I've gotta have you
This might end our friendship
The chance I'm gonna take it
If you feel the same way I know that we can make it

You can't fight love
You can't fight love
Don't you turn and walk away
Cos I thought I heard you say
You lost it time and time again
You can't fight love
No you can't fight love
You can't buy it on a shelf
You should look for no-one else
Nobody but myself
You can't fight love
