Lyrical plumber, drainin rappers pipe dreams  
Gimme a mic I shine bright like a light beam  
Better yet I'm quite like lightning  
It's a nice thing to know you got a nice thing  
That's why I always spit my rhymes so lively  
Feelin full of life like I was hooked up to an I.V  
I'm reachin for the top I will not be denied  
So everytime I spit I drop like the tide  
I'm a monster in a moshpit movin to the music  
I groove next thing ya know somebodies under my shoes  
I got moves like the globetrotters yes I'm a globetrotter  
I walk the skies like Luke and his old father  
Stay on my feet twinkle toes sprinkle flows  
Hitchu you with the iron real quick like wrinkled clothes  
The block is hot shit pop off quick  
I run these courts like hot sauce did  
I'll run up on ya porch and drop off lead  
Shotty to ya head do what the hotboy said  
Leave you sprawled out on ya front lawn like a yard sale  
Or better yet somewhere upstate next to a guard rail  
On route 17 by a town close to Badabinghamton  
So out in the open yet no evidence not a fingerprint

Inspectah Deck  
Second verse

Not a trace!  
Ya stepped in the pit of the flame  
Ya lost on beat street I'm a throw spit on ya name  
How he got it you can get it the same  
Son sick in the brain  
Not to fuck with simple and plain  
Hit it raw when they mention the name  
It's like mike when he score with like 2 seconds left in the game  
Come thru blue sweats and a chain  
And I'm far from far fetched the INS rep what he claim  
Small change don't step in my lane  
I rep too hardbody click bang give em the pain  
With the slick slang grip on their brain

Shotgun with misting twistin up piff in the rain  
Nah man can't get wit them games  
Ya boy born wit it so how you gon get em to change  
They hatin cause the dick in they dames  
Skatin in the six to the range  
While they whisper the names  
Lames throwin shit on the gain  
Pirrahnas wanna see me in the state greens  
imprisoned and chained  
I'm smooove like the groove to the listener brain  
Ya only understand it if ya been thru my pain

Inspectah Deck  
Third verse

I shine big time walkin on the borderline  
Wall climber spiderman it's all by design  
All these cats rappin bout crime  
No criminal rap sheets it's deep I think the worlds goin  
blind  
I pitch thick nicks on the grind I get six figz for the line  
the clicks in behind  
If tricks on ya mind ya know that's out  
I got the go that route wit these chicks everytime  
You know the kind set u up give u lil shine  
Next thing niggas jumpin out the closet wit nines  
Whether rhymes or crimes All I want is mine  
I came from the grain and gave birth to grime I work  
mine  
Murder verse brother burst rhyme  
Hardcopy nigga work it like the first time  
Rebel I show hold on ya mind  
And if ya keep watchin ima show u a sign  
But don't get close homie flip on the dime  
I'm only close to the edge cause I live on the line  
Bassline you can feel it in the spine  
I came from the bottom I can't recline I'm shiftin

DDermz  
Fourth verse

Yeah it's the underdog,  
You know the one that you don't wanna come across  
This shit aint nothin to a fuckin boss  
I'll stand here all day fuck the cost  
I'm real slick yo the kid is a crook  
I'm gettin rich off the oldest tricks in the book  
Like bob weave jab twice slip em the hook  
Can't touch me I'm just too quick in the foot  
Never gonna fade away stain or ever make mistakes  
Snooze or take a break nahh ima stay awake

All you have hearted rappers better stay away  
Save that shit for anothr day like lay a way  
My tactic on the mic is spray and pray  
Don't gotta paperchase already smoke the best check  
how the vapors taste  
Cause I aint blazin if it aint the haze  
Don't pull out no reggy ull look like a clown we might  
paint ya face  
I come thru wit that skunk and I'll taint ya place  
I even brought gas masks to keep ya neighbors safe  
Blaze an 8th of dank for a wake and bake  
I got that michael j fox flow it'll make ya shake  
It's the boy Dermz I'm sharp as a razorblade  
I spit crack like snoop dogg in trainin day  
It's the cocky pothead droppin nonsense rockin  
continents  
Bombin monuments  
Amazin intelligence check out the latest developments  
I smoke the best shit and this haze is the evidence  
Blaze like a gentlemen briancells irrelevant  
Just put out a blunt about to raise the L again  
The shotty rip from the dutch break ya skeleton  
Hindu kush got motherfuckers chasin elephants  
Ina state of eloquence watchin basic television  
Smokin Ls on a daily basis swell isn't it
