Oh, oh, my baby, bet you can see me now  
Oh, oh, my darlin', I'm scared to be me now  
I'm a ghost in my overcoat  
A temporary number in the crowd  
At war with this undertow

Wish I could hold you, wish I could hold you now  
Wish I could hold you, wish I could hold you now  
But I'm going down to the salt mine to start  
Diggin' out from the rubble that's left of my broken  
heart

My livin' angel I saw you spread your wings  
From tropic to cancer  
City of angels gave me a golden ring  
I prayed and you answered

Wish I could hold you, wish I could hold you now  
Wish I could hold you, wish I could hold you now  
But I'm going down to the salt mine to start  
Diggin' out from the rubble that's left of my broken  
heart

Even though you're not around, never gonna let you  
down  
Even though you're not around, never gonna let you  
down, down  
But I'm going down to the salt mine to start  
I'm going down to the salt mine to start diggin' out
