Visit "[Designer Behavior](#)" on MotoLyrics.com

Don't wanna talk about it

Don't wanna read about it

Don't wanna hear about it

Don't wanna see about it

Some thing's funny about a medical physician

Me lying on my back is his favorite position

Designer behavior with Paxil and Valium

Even you can stomach Prozac and Lithium

Remember, Ozzie And Harriet?

Remember the Stepford Wives?

Remember, Father Knows Best?

Remember, I Love Lucy?

A product of design

Back to the drawing board

Gotta be insane to fit in

If not you'll be ignored

You take apart my brain

But you couldn't make the pieces fit

Then give me happy pills

There's pieces left you idiot
