I put my heart and my soul in every word

When I speak the truth it ain't be heard life lesson
I quickly have to learn
You can't make everyone happy good or bad they all
got opinions
About my life and now I should live it I am happy now...
used to
Try to get used to by the way
I let them talk what they wanna talk about me
Say what they wanna say about me
Don't let them bring me down none of you
I don't need to hurt don't need the pain don't need the
stress
Don't need to wait tried to hard to wanna cry again
I am a bad what I need is love
What I need is love
What I need is love
I need you to love me

Sun in my face but threat me cold
Disappear when I need it you the most
Like you the change come and gone
Don't wanna know more don't need to know more
I felt someone... to be there for me
It ain't no fairy tale but I am living happy ever after
I let them talk I let them talk what they wanna talk about
me
Say what they wanna say about me
Don't let them bring me down none of you
I don't need to hurt don't need the pain don't need the
stress
Don't need to wait tried to hard to wanna cry again
I am a bad what I need is love
What I need is love
What I need is love
I need you to love me

I don't need to hurt don't need the pain don't need the
stress
Don't need to wait tried to hard to wanna cry again
I am a bad what I need is love

What I need is love
What I need is love
I need you to love me
