"We Belong Together"

Visit "[We Belong Together](#)" on MotoLyrics.com

We belong together
What would we do without each other?
We belong together
We would be lost without each other

I just received your letter
Already I feel better
Darling, I'm lonely too

Those tender words I read
Words so sweetly said
The words I love the best

How we belong together
What would we do without each other?
We belong together
We would be lost without each other

Then you go on to say
We can go on this way
Darling, I need you so

With each tender line
Awakens my mind
To love and you agree

You don't know how much you've lifted me
With these words you wrote so tenderly

You don't know how much you've lifted me
With these words you wrote so tenderly

We belong together
What would we do without each other?
We belong together...
