Fly away, fly away, fly away, fly away
Fly away, fly away, fly away, fly away
Fly away-ay-ay, ohh, fly away

All you children of the world
Spread out your wings and fly
Yes, you can soar so high
You can learn to be free
Choose your own destiny
Beautiful things come to those who try, ooh, try
Love is the master key
Opens humanities
Ohhh, live and learn to love and fly away

Children, you beautiful children
Children, you beautiful children
Fly, fly, fly, fly away
Children of the world, won't you fly away

All you children of this land
Now it's your chance to climb
Step off and claim your time
Make your dreams realities
Cross the worldly seas
God is here to watch and guide your deeds, your
deeds
Just plant the loving seeds
And make them grow
Whoa, ohhh, live and learn to love and fly away

Children, you beautiful children
Children, you beautiful children
Fly away, fly away, fly away, fly away
Children of the world, won't you fly, won't you fly away
Children of the world, fly away
Children of the world, won't you fly, won't you fly away
All you children of the world, fly away
