# "Goddess Of Love"

Visit "[Goddess Of Love](#)" on [MotoLyrics.com](http://MotoLyrics.com)

Come with me and I will be  
Your goddess of love  
Whoa-----

Goddess of love  
I'm your goddess of love  
The queen of the night  
I'm your goddess of love  
I'll take you deep inside  
I'm your goddess of love  
On a magic carpet ride  
I'm your goddess of love  
I'm blowing up your mind  
I'm your goddess of love

Make you fly like a moth to a flame  
You were mine from the moment you came  
You were mine  
I could see by the fire in your eyes  
I could see it, boy  
Loving me makes your temperature rise  
Rise

I feel you reaching up to me (Up to me)  
My loving lips are what you need  
And I know we can work it out

I'm your goddess of love  
The queen of the night  
I'm your goddess of love  
On a magic carpet ride  
I'm your goddess of love  
I'm blowing up your mind  
I'm your goddess of love, oh, oh, oh

Got your heart in the palm of my hand  
It's beating, boy  
Gonna squeeze 'till you're too weak to stand  
Oww!

I'll take you where you want to be (Want to be)

The secrets inside of me  
And I know we can work it out

I'm your goddess of love  
The queen of the night  
I'm your goddess of love  
I'll take you deep inside  
I'm your goddess of love  
I'm blowing up your mind  
I'm your goddess of love

A look like lingers  
Is there something on your mind?  
I hear you thinking  
Uh-uh, my skin never lies

Woo, hoo, hoo, hoo  
Ooooooh, hoo, hoo, hoo  
Ohhhhhhh, ahhhh, ah  
Ohhhhhhhhhhhhhhhhh

I'll take you where you want to be (Want to be)  
The secrets inside of me  
And I know we can work it out

I'm your goddess of love  
The queen of the night  
I'm your goddess of love  
I'll take you deep inside  
I'm your goddess of love  
On a magic carpet ride  
I'm your goddess of love  
I'm blowing up your mind  
I'm your goddess of love, goddess of love, baby  
Ooh, goddess of love  
Come on and take me inside, ooh  
Goddess of love  
Come on, come on, baby  
Ohhhhhh (goddess of love) oh, ho  
Ohhhhhhhh, ho, ho, ho, ah
