I don't know where I am  
Or how I got here  
Thousands of people are moving to some sort of sound  
A strange sound I've never heard before  
It frightens me  
But at the same time, I'm fascinated by its power  
Everyone seems controlled by it  
Weather they want to or not  
I find myself wandering through the crowd  
People were talking to me  
Shouting, waving  
But the sound is so loud  
You cannot hear a word they're saying  
Could this be some form of music?  
Music...

Shouting, waving (x??)
