We march towards the gates of Hell.
Eyes are Milky, Faith has failed.
Gravitys, the only thing holding me back.
Take a breath, Cos I'm...

Like Black And White, I change.
Like Greyscale.
Like Black And White, I change.
Like Greyscale.

Out of darkness, out of mind.
Gravitys on my side.

When you turn they will be gone,
Whispring there hidden song

Then you see what can not be,
Shadows move were light should be.

1, 2, 3, 4!

Follow you're soul,
Gravitys your only law.

Stand back and watch me soar!
Stand back and watch me soar!

Oh!

I can't fucking believe my eyes, we done it once again!
I can't fucking Believe these lies, I'll die instead.
Die instead. die instead.
