Why won't you let me be with you?  
Why won't help me seen my view?  
Why can't you help me seen my view?  
Why can't you let me be with you? (be with you)  
Help me understand(let me be with you, why won't you  
Let me)  
Come on, just be my friend (guide, guide)

Why wont you let me be with you?  
Why wont you let me seen my view?

Why wont you let me be your friend?  
Why wont you let me understand?

Why wont you let me be your friend?  
Why wont you let me understand?

Ahhhh be(with me)  
Help me understand(let me be with you, why wont you  
let  
Me)  
Come on, just be my friend (guide, guide)
