In some ways
You may never change
In another day
You won't know me

We've got debt to pay
Promises to keep
So you'll stay at home and fall asleep

We can never go wrong
We can never go wrong

It's been too long
Go on take some time
Walk down the street
To another place
Where we can meet

Are you scared of getting caught
Trying to be something you are not?

We can never go wrong
We can never go wrong

Cause it's been too long
(Cause it's been too long)
La la la la la yeah
La la la la la yeah

There's a time and place for everything
In the note I wrote
There's a song to sing

La la la la la yeah
La la la la la yeah

We can never go wrong
We can never go wrong
