(Browne/Maitland)

There was a time we saw life
Like it had no end
And no darkness in our days
For our sins you walk in
And everything changed
Now we stare darkness in the face
Just like the papers say
When they always say goodbye
And just like we're here today
We will always stay together until then

(Chorus)

We have
All the time in the world
We have all the time in the world
All the time in the world
We have all the time in the world
We've got something inside
You and I
We'll get through it
Don't be scared to be afraid
There's many days many nights
In another life
Every moment that we've saved
(then it begins)
Things we'll never say
We will never say goodbye
And just like we're here today
We will always stay together until then
(Chorus)
