(Browne/Woods)

Help me I'm shameless

I thought I'd forget her but I'd never bettered myself

Headstrong & blameless

I thought I'd be stronger the longer I stayed on the
shelf

Because I believed that life

Though I can't say why

But can't you see that

I'm no longer free to love you

Adopted and but orphaned

I crawled down the street but was never complete with
myself

No more decisions

Because I believe that life

Though I can't quite say why

But can't you see that

I'm no longer free to love you

I thought I'd be stronger the longer I stayed on the
shelf

Thought I'd forget her but I'd never bettered myself

I crawled down the street but was never complete with
myself

Because I believed that life

Though I can't say why

But can't you see that

I'm no longer free to love you

Can't love you now

I'm no longer free to love you
