I don't take it lightly
Because I've seen all that it has done
And I know that far from solution
Time will show the worst is yet to come
And it's clear, it's clear by your actions
You're unaware of decisions you have made
But one day you'll look back and realise
There was once a time it could be saved
It'll never be the same

It's not about tries or even their lies
It's not about all the major changes you have known
It's all about giving
It's not about fate or putting in place
It's not about all the principles you have to show
It's all about living
So love your life, live your life
Love it like you'd live it twice
Let your life decide the brightest way

Please think before you remember
And please talk before you regret
For you know that many have wondered
But it's true few can forget
It'll never be the same

It's not about tries or even their lies
It's not about all the major changes you have known
It's all about giving
It's not about fate or putting in place
It's not about all the principles you have to show
It's all about living
So love your life, live your life
Love it like you'd live it twice
Let your life decide the brightest way

So love your life, live your life
Love it like you'd live it twice
Let your life decide the brightest way
Let your life decide the brightest way
