### **"See You There"**

Visit "[See You There](#)" on [MotoLyrics.com](https://MotoLyrics.com)

Now if you believe - Believe  
You know we could meet there  
You know we could meet there - we could meet there  
You know I could see you there - I'll see you there  
And if you are strong - strong  
You know we could be there  
You know we could be there - we could be there  
You know I could see you there

Although we should be together  
Believe that we'll be - together  
If the tears must fall just let them  
Do not hide them or regret them  
For the depth in you will strengthen  
And you'll see it will lead to me

Then you'll be strong - strong  
I know we will be there - yeah  
I know we will be there - we will be there  
I know I will see you there - I'll see you there  
And then we'll all be - together  
For ever happy - together  
And the laughter will not measure  
All the love we'll have together  
Just knowing that they'll never take away  
They can't take away

Our belief - belief  
Belief that we'll be there - yeah  
Belief that we'll be there - we will be there  
Belief that I'll see you there  
I'll see you there
