Oh yeah you're all cracked up fury  
All get no jury to defend you  
You tried but you couldn't try  
When they see you  
You want me to hang around  
With you always  
But you lie and die  
When all you ever give me is disgrace  
That's the way down  
That's the way down  
That's sedation  
That's sedation  
Or one of the two  
Or one of the two  
With our saturation eyes  
You think you can disguise all those meat things  
But can you grovel in the dust  
With masochistic lust and make the song sing  
Oh yeah you're all cravked up fury  
All get no jury to defend you  
You tried but you couldn't cry

When they see you  
That's the way down  
That's the way down  
That's sedation  
That's sedation  
Or one of the two  
Or one of the two  
Oh yeah you're all cracked up fury  
All get no jury to defend you  
You tried but you couldn't cry  
When they see you  
You want me to hang around  
With you always  
But you lie and die  
When all you ever give me is disgrace  
That's the way down  
That's the way down  
That's sedation  
That's sedation  
Or one of the two  
Or one of the two One of the two Or one of the two Or  
one of the two
