I've got myself to blame  
I've got my weary bones  
I've got my lessons learnt  
I've got my a hand to hold

But I could have had her right inside my pocket  
She could have been just mine you have at home  
But the love we shared went faster than a rocket  
And the diamond she gave me turned back into gold

GO!

I've got my cheques to cash  
I've got my

I've got my battle lost  
I've got my a ribbon wo en

But I could have had her right inside my pocket  
She could have been just mine you have at home  
But the love we shared went faster than a rocket  
And the diamond she gave me turned back into gold  
And the diamond she gave me turned back into gold  
And the diamond she gave me turned back into gold
