"If You Want To Know Me"

Visit "[If You Want To Know Me](#)" on MotoLyrics.com

If you want to know me, see what we'd be like
Come and sit beside me, see if it feels right.
If you want to know me, try and look and see.
If you want to know me, then take a chance on me.
We can tell the people we are just good friends.
We'll take it kind and easy, and hope that it would
never end.

If you want to know me, I promise not to call.
I'll give you time to need me, we'll talk of love at all.

If you want to know me, I'll have a little time
Nothing but to stop me from giving you a smile.
And if you want to know me, my heart ain't doing much.
Hands are tired of waiting for other hands to touch.
I'll be there, just waiting till you come around.
We'll take it kind and easy, and hope that it would
never end.

If you want to know me, I promise not to call.
I'll give you time to need me, we'll talk of love at all.

(Guitar solo)

I'll be there, just waiting till you come around.
We'll take it kind and easy, and hope that it would
never end.
If you want to know me, I promise not to call.
I'll give you time to need me, we'll talk of love at all,
yeah.
If you want to know me, try and look and see.
If you want to know me, just take a chance on me.
