That's the spirit of the time  
Our modern life  
Fast moving pictures under a porous sky  
Fucked up environment  
Your future will be dark  
Sitting in your corner,  
You Children of despair

Artificial happiness on MDMA  
Hurry up to fix the date  
On the single line  
Wake up for the party  
Dance yourselves till death  
You don't wanna leave the corner,  
You Children of despair

No more smiles on photographs  
The image of the desperate generation

Nobody wants to vote  
For this modern life  
Equal masses moving to the sound of steering wheels  
Why should we dance with brother D  
In the corner you will hide,  
You children of despair

All dead philosophies  
The experiment had failed  
Values of democracy  
Humanity is sold  
Artificial beauty in an artificial world  
Why should you leave your corner  
You children of despair

No more smiles on photographs  
The image of the desperate generation
