Man Mind Machine by Dance Or Die

Man mind machine
And I'll be with you all again

Visions in my mind come closer
All these dreams that never last
Nothing to be seen and nothing to be read
In my undetected past (??)
And I'll be with you

Man mind machine
And I'll be with you all again

Man mind machine
And I'll be with you all again

Visions in my mind come closer
Like a picture all in red
Just an old forgotten story
Banging in my head
Noone can hear me

Man mind machine
And I'll be with you all again

Man mind machine
And I'll be with you all again
