Get me out  
Out of suburbia  
There is no harder way to grow up than this  
Forget the values  
All the silly games, all the stupid aims  
They want you to play  
Have we slept with the devil?  
The piece of free was you

But somewhere there's a better world  
Psychoburbia  
Time to choose a better world  
Psychoburbia

So I dropped out in psychedelia  
I did it all so fast, stigmas of my past

Grown up in a better world  
Just call it the middle class, hammers like a fist  
Still I'm waiting for Cinderella  
Get me out here, you see I can't resist

But somewhere there's a better world  
Psychoburbia  
Time to choose a better world  
Psychoburbia

Get me out, out of suburbia  
That means to everyone to highway of

Here they come  
They're gonna take me away
