What we're looking for,
it's not in you, it's not in you.
They all seem like clones to me.
But I won't let them change me.
This small, crawl bug has seen through their skin,
and the way the walk,
and the way they talk,
and the way they look,
and the way they talk down to me.
What we're looking for,
it's not in you, it's not in you,
what we're looking for.
They all seem like clones to me.
But I won't let them change a single thing about me.
This small, crawl bug has seen through their skin,
and the way they walk,
and the way they talk,
and the way they look,
and the way they talk down to me,
to me, to me, to me.
What we're looking for,
it's not in you, it's not in you,
what we're looking for.
What we're looking for,
it's not in you, it's not in you.
I can't believe the things that they say.
I can't believe the things that they say, say.
I can't believe the things that they say.
I can't believe the things that they say.
I can't believe the things that they say, say.
I can't believe the things that they say.
