

6 Gig "Method"

Visit "[Method](#)" on MotoLyrics.com

I find it hard to believe
your bullshit licking bloodied knees
perfect timing
perfect timing, timing
I keep my method to myself
I keep my method to myself
far away left inside
I keep my method to myself
I keep my method to myself
I keep my method to myself
far away left inside
I keep my method to myself
you're perfect in every way
your bullshit, deeper everyday
perfect timing
perfect timing, timing
I keep my method to myself
I keep my method to myself
far away left inside
I keep my method to myself
I keep my method to myself
I keep my method to myself
far away left inside
I keep my method to myself
she lets me bare
my weight on myself
it's too bad you're full of shit
keep my mouth shut
I keep my method to myself
I keep my method to myself
far away left inside
I keep my method to myself
I keep my method to myself
I keep my method to myself
far away left inside
I keep my method to myself
