Ooh ooooo no yeah
So far away
A place where you are

It's a place where I am
With my thoughts in my head
Far away (far away)
A place in my mind
I am counting the days
Since you've been away

Wanna see your eyes in the sky
Wanna feel your hand next to mine
Wanna be the sun in your life
Let you know how I feel
Wanna see you rise in the sky
Wanna feel your smile next to mine (yeah yeah)
Wanna know this time that you're mine
Baby tonight we will shine

Text me an SMS
Before I go to sleep
So I can know tonight
That you've been thinking of me
Text me an SMS
All that I need is you
Tell me your love is real
Tell me it's true

This feeling I have it's really tearing me up
It's burning inside my heart and my soul
And without you I feel I'm out of control
Every day, every night

Wanna see your eyes in the sky (yeah yeah)
Wanna feel your hand next to mine
Wanna be the sun in your life
Let you know how I feel
Wanna see you rise in the sky (ooooooooooh)
Wanna feel your smile next to mine
Wanna know this time that you're mine
Baby tonight we will shine
