can i steal your mind?
can i crawl down inside?
and when i am your child
can i feed in your eye?
can i drink the air in your lungs?
and can i breath your sweet thick blood?
my love is everywhere
my love will never escape
i love your body and mind
i will never escape
my love is everywhere } [x2]
my love will never escape }
my love is everywhere
no it will never escape
and can i take out the claw?
and steal the fruit in your hair?
and throw my body inside?
down where it's dark and it's grey
i love you more than you like
i love your body and mind
i love you more than you like
and it will never escape
my love is everywhere
no it will never escape
our love is everywhere
i will never escape
