"Eva"

Visit "[Eva](#)" on [MotoLyrics.com](#)

You change your make up nearly four times a day,
Learning old Frank Sinatra's (2)"My way".

House is clean and grass is green

I've got my freedom, freedom...

Like a fool I'm standing here

Staring at your window

Sing in rain sing in joy and in pain

Bring me that sunshine.

Like a fool, like a guy from high school

Fell in love with you, joy of mine

And whatever ever ever happens to the weather right now

Baby girl one thing I know for sure and more

We've got to be simply got to be...

simply got to be....

Oh, I wish I could have just something to say

But I don't now this Shakespeare's language of UK, of UK.

Ukraine is far just like you are

And I see clearly right now

The only chance to be a star so you could hear me.

Sing in rain sing in joy and in pain

Bring me that sunshine.

Like a fool, like a guy from high school

Fell in love with you, joy of mine

And whatever ever ever happens to the weather right now

Baby girl one thing I know for sure and more

We've got to be simply got to be...

In rain in joy in pain

Bring me that sunshine

Like a fool like a guy from high school

Fell in love with you, joy of mine

And whatever ever ever ever happens to the weather right now

Baby girl one thing I know for sure and more

We've got to be, you know, together.

Pardon me for the rhymes like ever - together...

I didn't mean it...
