Pacat ca trebuie sa trecem prin toate astea...da..cum spuneam..tot raul spre bine ! .

.iti promit ca nimic nu va schimba ceea ce simt,te iubesc si iti multumesc pt tine..!

strofa 1:

Close your eyes just for one second  
Listen into my heart how the yearning drowns me...  
Permit my thought to irrupt into your soul  
It will answer you how much I love you  
Two thousand kilometers between us couldn't divide us from each other  
Two thousand dropped tears of us,on waves it carries us to each other.  
I am alone on the street and I talk with you on my mind  
I remember that I love to see you laughing  
When the moon isn't any longer on the sky to talk to me  
To tell me that you are okay/fine and to hush me  
I feel you close to me,like my guardian angel  
You bestow wings on me so that I can reach you and fly to you  
to touch you..God,how much I missed you,to kiss you,good night,sweet sleep!  
To kiss you,good night,sweet sleep!

refren:

Sentimentele nu pot fi puse pe balanta  
Nu ne poate desparti nici o distanta  
Suntem suflete pereche mereu in zbor  
Am nevoie de tine ingerul meu pazitor  
Sentimentele nu pot fi puse pe balanta  
Nu ne poate desparti nici o distanta  
Suntem suflete pereche mereu in zbor  
Am nevoie de tine ingerul meu pazitor

strofa 2:

I am alone and thoughtful  
I am away,a long way off  
I didn't change,I didn't forget you  
At the thought of you my soul is burning  
We have to be 2 fighters in this life  
Even if we have a way covered with mud infront of us  
We walk ahead like we know,but we go straight on like we know  
I am stray in the night under a window without stars  
I just walk the way you tell me,oh light of my life  
We talk on the phone and I tell you that I am ok  
I lie to you! because I am just ok when I'm close to you  
365 roses for my princess

You send me happiness with your gaze,I wish that you are like that...  
a blue sky and much sun in my life  
I am like I am,without you I couldn't be...

refren:

Sentimentele nu pot fi puse pe balanta  
Nu ne poate desparti nici o distanta  
Suntem suflete pereche mereu in zbor  
Am nevoie de tine ingerul meu pazitor  
Sentimentele nu pot fi puse pe balanta  
Nu ne poate desparti nici o distanta  
Suntem suflete pereche mereu in zbor  
Am nevoie de tine ingerul meu pazitor

strofa 3:

It's one of this stupid days  
I am thinking of you and it just hurts me  
You didn't do anything wrong with me,it's just that you are not here  
It's the moment when you don't have(something) but you wish (to have it)  
You are on my mind,I see you crying,you are the most beautiful  
I am living by you,nothing else matters  
you know,nothing can replace you  
we have dreams together which have to come true  
the distance makes me thin but very strong (meaning strengthen the soul but  
makes the body weak)  
I love you and I am not any more afraid of the darkness  
We grew up together,we learned the way we want to be  
The sentiments are in the first place,we don't lie to ourselves  
The best friend is a speacial girl  
Although some people don't understand us and betray us  
The distance doesn't matter because it's important what we feel  
I love you, you love me  
We have what we wish

refren: 4X

Sentimentele nu pot fi puse pe balanta  
Nu ne poate desparti nici o distanta  
Suntem suflete pereche mereu in zbor  
Am nevoie de tine ingerul meu pazitor  
Sentimentele nu pot fi puse pe balanta  
Nu ne poate desparti nici o distanta  
Suntem suflete pereche mereu in zbor  
Am nevoie de tine ingerul meu pazitor
