It feels like the whole world playing on me
I don't know who I can call my homies
I think I am playing too much and it feels like I am
losing
It feels like the whole world playing on me
I don't know who I can call my homies
I think I am playing too much and it feels like I am
losing
Wake up in the morning I am zoning I am screaming
fuck it
No homie don't feel nothing .. ugly up in these streets
Just keep your eyes on the sparrow that is .. sake
You call this entertainment what a fare play .. these
niggers â€¦
I guess you would have fabricate your life that is what it
takes to sail
A .. on probation and then get straight to jail I hate
thisâ€¦ that we are living in
But I will be damn if I get up I came to bring us what the
plan was real niggers in the game
And if you are feeling like I feel it put your hands up I
am shitting on every nigger when I get their grounds
up
It feels like the whole world playing on me
I don't know who I can call my homies
I think I am playing too much and it feels like I am
losing
It feels like the whole world playing on me
I don't know who I can call my homies
I think I am playing too much and it feels like I am
losing
Follow me bitches and witches they are only .. for riches
No homies out contagions or â€¦ living the world is so
fucked up made up my mind
And really I don't give a fuck bro that is how I am
feeling but really don't wanna put this game in the
figure for me niggers fake it they are restless â€¦
Reason I was living makes me bigger my mother say I
get stronger ..
I am the hardest - don't give a fuck who is gonna listen
The mission is to get shit back on top

It feels like the whole world playing on me
I don't know who I can call my homies
I think I am playing too much and it feels like I am
losing

My car volume is low since I was on tv
But you can go to the movies if you wanna see me
Dick riddles cut circles and kick .. just assure .. jumpers
When I get a fast shot I am doing big numbers best
believe â€¦
Stick coming I get money you must be a big diamond
thank it I lost the see â€¦
Put two in two together .. half of these niggers are lying
.. everything serving hard ..
Their problems came out of â€¦
It feels like the whole world playing on me
I don't know who I can call my homies
