"Get Back"

Visit "[Get Back](#)" on MotoLyrics.com

It's one way, cheap ticket
Wrong lane, head on collision
And it's getting late the time's tickin'
Don't wait for your position

At the red light
There's no stoppin?
Just drop the pedal
Let the speed keep risin?

Get back on your feet
Get back in the fight
Get back in the ring
And get back in the light

Get back in the flames
Get back in the fire
Get back on the stage
You got to get back

A sweat breaks, you're not ready
To face the fury of a one-man army
Well, it's too late, the heat's coming
No turning back, no time for running

So you get ready
Lace up the gloves
No laying down now
When push comes to shove

Get back on your feet
Get back in the fight
Get back in the ring
And get back in the light

Get back in the flames
Get back in the fire
Get back on the stage
You got to get back

The fight isn't over
I was a coward

While facing the lions
Well, now I've got my
Toe to the line

I was a coward
While facing the lions
Well, now I've got my
Toe to the line

The fight isn't over the dream is alive
And we'll keep fighting
For the rest of our lives
This fire is burning us all up inside
So we'll keep on fighting, fighting

Get back on your feet
Get back in the fight
Get back in the ring
And get back in the light

Get back in the flames
Get back in the fire
Get back on the stage
You got to get back

Get back on your feet
Get back in the fight
Get back in the ring
You got to get back

Get back in the flames
Get back in the fire
Get back on the stage
