There's a whole world going on outside
But you've been stuck inside your mind
Do you let fear motivate you
Or does it complicate you?
Leaving you a step behind

You're left with no one standing by your side
You try to justify your lies
It starts to agitate you
Don't let this aggravate you
There's no need to apologize

We all need resolution
You can find your way through
There's only one solution
You've got to find what you're looking for

You been hiding in that weak disguise
Hoping no one sees your foolish eyes
Don't let that intimidate you
Don't let it separate you
From all the ones who question why

Just keep on reaching for the sky
And you'll find out it's not that high
When you let love elevate you
When you let it gravitate you
You're in for the ride of your life

We all need resolution
You can find your way through
There's only one solution
You've got to find what you're looking for

Don't let this moment pass you
Don't let distractions blind you
Don't let the questions stop you
Don't let the answers miss you

We all need resolution
Where to find your way through
There's only one solution

You've got to find what you're looking for

How can you find

If you don't know what you're looking for?
