Well, I can't stop thinking about it  
I don't like living without it  
So please don't take, take, take it away  
So find another way

Things get so complicated  
Frustration's overrated  
Somebody please take, take, take it away  
There's got to be a better way

For us to find our way around  
But for now, we'll just have to say

Sometimes I lose my mind  
Sometimes I don't know why  
And I don't know if I can find a way around  
To work it out

Sometimes I lose my mind  
Sometimes I don't know why  
And I don't know if I can find a way around  
To work it out tonight

All of these weak reactions  
All start with stupid actions  
Somebody please take, take, take it away  
So find another way

So long I've concentrated  
Emotions overstated  
So please don't take, take, take it away  
There's got to be a better way

For us, for us to find our way around  
But for now, we'll just have to say

Sometimes I lose my mind  
Sometimes I don't know why  
And I don't know if I can find a way around  
To work it out

Sometimes I lose my mind

Sometimes I don't know why  
And I don't know if I can find a way around  
To work it out

Things can get so complicated, I'm frustrated  
There's confusion in my head  
Things can get so complicated, I'm frustrated  
There's confusion in my head

It's times like these I need to stop and think  
Make all of me start to fit the missing link  
Down on my knees, it's my mind that's leaving me  
God help me please to make sense  
To make sense of all this

Sometimes I lose my mind  
Sometimes I don't know why  
And I don't know if I can find a way around  
To work it out tonight

Sometimes I lose my mind  
Sometimes I don't know why  
And I don't know if I can find a way around  
To work it out, to work it out
