I can see you stepping to me
Just by the look in your eyes
You think that I can't be who I am
If I don't live out your life
But that's alright cause

I know who I am underneath it all
I'm gonna be who I am through it all

I can see you talking to me
But I can't hear what you say
And all the words coming outta your mouth
Have got me moving away
But that's okay
But I won't walk away from the place that I need to stay

I know who I am underneath it all
I'm gonna be who I am through it all

I don't wanna be like you
I don't wanna be like me
I wanna be like I AM
The one that made me ME

Cause I know who I am underneath it all
And I'm gonna be who I am through it all
