"Underneath It All"

Visit "[Underneath It All](#)" on MotoLyrics.com

I can see you stepping to me
Just by the look in your eyes
You think that I can't be who I am
If I don't live out your life

But that's alright

'Cause I know who I am underneath it all
And I'm gonna be who I am through it all

I can see you talking to me
But I can't hear what you say
And all the words coming outta your mouth
Have got me moving away

But that's okay
But I won't walk away
From the place that I need to stay

'Cause I know who I am underneath it all
And I'm gonna be who I am through it all

I don't wanna be like you
I don't wanna be like me
I wanna be like I am
The one that made me, me

'Cause I know who I am underneath it all
And I'm gonna be who I am through it all
