"When tomorrow comes"

The sunshine of a new day
Shines upon my face
I don't know where to begin
I don't know how we came to this
If things don't change maybe I'll
Be the one that you can't find

I've tried so many times
Tried to get it right
Just so our worlds won't collide
Like two stars in the sky

It's time we both decide
To leave this all behind
'Cause when the sun goes down
The future's looking bright

When all is said and done
And tomorrow has begun
Remember today is now yesterday

Can we find a way?
Find a way to let it go
Just remember when, when tomorrow comes
Today is now yesterday
Can we let it go?

The sunshine of a new day
Shines upon my face
Reminding me of mistakes
Memories I must erase
Here's one more chance for me
To throw them all away

Today's a brand new start
We made this way too hard
We both need something like
Amnesia of the heart

We stand here face to face
See, I won't look away
If you just hold my hand

We'll make it through the day

When all is said and done
And tomorrow has begun
Remember today is now yesterday

Can we find a way?
Find a way to let it go
Just remember when, when tomorrow comes
Today is now yesterday

Just remember when, when tomorrow comes
Today is now yesterday
Just remember when, when tomorrow comes
Today is now yesterday
Just remember when
Today is now yesterday

Can we find a way?
Find a way to let it go
Just remember when, when tomorrow comes
Today is now yesterday
Can we let it go?
Let it go
