Can't stand my life
Watching it passing me by
Now I've gone and shattered
This life that never mattered at all

And I'll never know
Loneliness gaining control
I'm always outspoken
And now I'm slowly choking it down

'Cause all I wanted was the truth
And all I wanted was...

And all I ever wanted
And all I ever need
The things that make me smile
Are the things that make me bleed
Calling out, calling out
What are you wanting from me?

You push and you shove
But I am not ready for love
And I know you're suffocating
And I know you're sick of waiting around

Shackled by pride
Ripped up and torn down by lies
Forcing me down
Like a man you never wanted around

'Cause all I wanted was the truth
And all I wanted was...

And all I ever wanted
And all I ever need
The things that make me smile
Are the things that make me bleed
Calling out, calling out
What are you wanting from me?

Say my name, scream it loud
What are you wanting from me right now?

I can't stand all of these things that I've done right now

And all I ever wanted

And all I ever need

The things that make me smile

Are the things that make me bleed

Calling out, calling out

What are you wanting from me?

Calling

Calling out

Calling out now...
