I lie awake on this phone call just dreaming of better days  
Flowers lie on the counter, reminder of better days

She says a prayer up to Jesus  
And she asks him for his strength  
And the night will go on bleeding  
Was it faith that paid the rent?

[Chorus]

I know you're barely listening  
I know you're barely listening  
I know you're barely listening  
Now I know you're...  
I know you're barely listening  
I know you're barely listening  
I know you're barely listening  
Now I know you're...

Standing here in the doorway with a candle and a gun  
The lights you threw open windows  
For now the day has won

[Chorus]

Like a child on her way here  
You just smile and run the other way  
And faith won't find me a reason  
It just smiles and runs the other way  
It just smiles...  
It just smiles and runs the other way  
It just smiles...  
It just smiles and then runs the other way

(scat singing)

It's not worth waiting

[Chorus]

You question love with a camera  
And you're catching love with a will  
Well heart lies in loneliness

Now fight the past can kill
