It's time!

Did I give in too much?  
Was it never enough?  
The walls are rising up  
Is it too late to learn?

Starting to turn on me  
As if I stole its memory  
Left alone, gone and forgotten  
So close to breaking me in

And I wish you well  
I'm the storm giving you hell  
So take cover cause I'm not the only one  
I'm not the only one

It's time...  
I'm not the only one  
You're killing everyone  
I'm not the only one

You're never close enough  
You're too far behind  
Stripped to the bone  
No heart to find

I'm falling, nothing to break my fall...  
Once I hit I won't feel anything at all

And I wish you well  
I'm the storm giving you hell  
So take cover cause I'm not the only one  
I'm not the only one  
I wish you well, you won't drag me to hell, no never  
You'll be the only one  
You'll be the only one

Come back to me  
Your heart's not breathing  
Come, come back to me

Your heart's not breathing  
Please don't drag me down with you  
Never! Dragging me down with you.

I'm the storm giving you hell  
So take cover cause I'm not the only one

And I wish you well  
I'm the storm giving you hell  
So take cover cause I'm not the only one  
I'm not the only one  
I wish you well, you won't drag me to hell, no never  
You'll be the only one  
You'll be the only one
