I know exactly, where flows the river
I know for sure, what for the flowers grow
Where morning hides 3000 stars,
Not counting a blue moon

Where the wind blows the clouds from,
And how to get to the Sun, traveling light,
But If you asks me what love is,
I don't know, what to answer

Refrain:

It is a sunrise outside the window, it is towns in spring
It is a lone light, carrying along
It is only you and I who are somewhere Down Under
Setting in the sky balloons.

I have seen a miracle and was in such a distant spot
Where summer actually set in in december
But If you asks me what love is,
I don't know, what to answer

Refrain: (3 times)

It is a sunrise outside the window, it is towns in spring
It is a lone light, carrying along
It is only you and I who are somewhere Down Under
Setting in the sky balloons.
