HUNGER

Feel how the grass is breathing under my feet  
See how the sky is changing shades for you and me  
I can't wait to shake you out of your hypnotic dream  
There is nothing but rage and greed  
In the wind I hear you calling me out  
I know you can overcome  
Yes, your blood is red and still runs fast  
But your love is locked in wounded hands

Why won't you spread the light in your room?  
Why won't you lift your spirit?  
It is up to you

chorus:  
I hunger for your deliverance  
I hunger for you to be aware

Through ropes and wires I try to reach you there  
In your trance, in your spotlight, under your mask  
Before the chunk of garbage knocks your brain again  
I want you to get off the wheel of indifference  
Today is the day, the new season is coming  
Are you ready for other possibilities?  
Under the tree where you learned the old philosophy  
Plant the angel seed, give tomorrow a chance

Why won't you give up your inhibitions?  
Why won't you free yourself?  
Go with the flow

chorus:  
I hunger for your deliverance  
I hunger for you to be aware  
I hunger for your deliverance  
I hunger for you to stay awake
