Save me I'm falling down  
Guide me I'm going blind  
Relieve me before my eyes run dry  
Hear me at this time

chorus:  
I still really try to tell you  
I'm ready now  
I'm open for your Love  
Don't let me wait and go without  
It's what I ask  
Liberate my mind

Protect me when I face my darkness  
Let my sorrows and confusions die  
Be my shield of Love when fear shows up  
be my shelter under the wicked sky

chorus:  
I still really try to tell you  
I'm ready now  
I'm open for your Love  
Don't let me wait and go without  
It's what I ask  
Liberate my mind

Light my way for Joy and Peace  
Lead me for the Gift of Divinity  
Refill me with the Truth that needs to be announced  
Shine through me - Liberate my mind

chorus:  
I still really try to tell you....
