Sorry if you wonder why I haven't written you a song  
Could you try and understand, it takes me pretty long  
To trust you, not just you, but anyone  
Could you try and understand  
Sorry if you wonder why I don't call you my BF  
I don't know if this helps but you can call me your GF  
And your best friend and anything I seem to be to you  
When they question what is she doing, what is she  
doing  
To you?  
Could you try and understand  
I don't always understand  
But could you try and understand and  
Let me break it down for you

I'm happy when I'm with you and I'm sad when you're  
Away  
There's not much I can give you today, today

But when you call my cell phone, your name on the  
Display  
Puts joy into my stomach, today, today

Could you try and understand?  
I don't always understand  
But could you try and understand, and  
I'll be your GF and your best friend  
And anything I seem to be to you  
When they question what is she doing, what is she  
doing  
To you  
I'm your best friend, and anything I seem to be to you  
When they question what is she doing, what is she  
doing  
To you  
Could you try and understand  
I don't always understand  
But could you try and understand  
Could you try to, could you try to, understand  
Understand?
