She's posting all the time but the boards are down  
It's a burned out building  
He's spending all his time on his back  
Staring at the ceiling

They spend themselves that way  
I'm with that, I'm with them  
You aren't. You are alive, damn it

Gnawing on the prey  
I think about you some  
Where to put you  
All backed up data for a raining time  
Insulate a fragile mind  
Capsulize a broken find

Don't do this man  
There's another one off behind  
Breaking down the door without warning

She just ignores the time that the boards came down  
It's a numbed out feeling

He just accepts that pain with a hate mantra  
A spiritual killing

They just relax that way  
I'm with that, I'm with them  
You aren't. You are alive, damn it

Crayon past the line, stay after school  
Crossword filled in non-photo blue  
So they'll never find you

I get the same result  
We get the same effect  
I get the same result  
We get the same effect

Can't go through this now  
I'm leaving a message  
Stapled on your head

Don't do this man  
There's another one off behind  
Breaking down the door without warning
