And I don't know how it goes
I've found another way that
Tells us all it knows
I've finally caught a deal

Your face above
Fades out all the reels
Your face above
Fades all there is
Uh oh. There's a spot in my eye
Uh oh. There's a pill I have missed

The cloves of garlic flow
Like surfing down Pompeii
I'm messing up your show
You really should have guessed

Your face above
Only spark I need
Your face above
If I could reach your throat
Uh oh. I could strangle you all
Uh oh. Did I say that out loud?

Although it passed the mail
It blew a fuse and bailed
It's too blue to be ours
And though it passed as red

Its too far off and best guess
Has it soaked at home

Uh oh. There's a spot in my eye
Uh oh. There's a pill I have missed

And this little red book knows
It's become my every day
I've taped over your show
You really should have guessed

Your face above
The only spark I need

Your face above
If I could reach your throat
Uh oh. I could strangle you all
Uh oh. Did I say that out loud?

And though the text was fed
Too obvious, they said
And moved it underground
Between the lines they met
Like sulfur burns they spread
Too angry to go out

Light my heart
Make me burn out like your name
